

Visionär Film Festival – Encounters with new Auteurs defines itself as an interdisciplinary, transnational platform for networking and the exchange of actors in the fields of visual art, film, and music. Its vision is to promote young talents and to contribute to intercultural dialogue by visually presenting different socio-political issues and the different cultures that live in Germany. Through film, we hope to contribute to the sustainable promotion and of different representations of cultures – which we consider essential as part of individual and social development.
